The Breeze three wheel truck

Compact Power Meets Maximum Efficiency

The Breeze 3-Wheel Electric Forklift is built to perform where space is tight and expectations are high.

Agile, intelligent, and powered by cutting-edge EVE lithium-ion batteries, it delivers rapid performance, low maintenance, and whisper-quiet operation at just 73dBA. Ideal for indoor use and narrow aisles, this smart truck blends operator comfort with seamless control.

Why You'll Love It:

- Ultra-maneuverable design, perfect for tight warehouse spaces
- Zero-maintenance lithium power
- Regenerative braking and dual AC motors for smooth, energy-efficient drive
- Spacious operator cabin with 50% more legroom than traditional models

Standard spec:

Load capacity:
1.5 tonnes

Lithium-ion battery:
EVE 80v 230ah

Max travel speed: **16 km/h**

Lift height: **4,500mm Triple**

Turning Radius: **1470mm**

The Breeze four wheel truck

A versatile all-rounder

When strength and precision matter most, the Breeze 4-wheel truck leads the charge.

Designed for entry-level work, this lithium-powered forklift blends toughness with the latest in electric efficiency. It's suitable for indoor and outdoor operations, and boasts smart tech like multilingual touchscreen displays and precision hydraulic systems.

Key Benefits:

- Built on the same platform as Hangcha's internal combustion forklifts
- High ground clearance and pneumatic tyres for rough or uneven ground
- Advanced ergonomic layout and wide-view mast improve operator safety
- Built-in 35A charger with 220V plug for everyday convenience

Standard spec:

Load capacity:
2.0-3.5 tonnes

Lithium-ion battery:
EVE 80v 230ah

Max speed: **15 km/h**

Max lift height:
4,500mm Triple

Drive motor: **15kW**

Lift motor: **24kW**

The Breeze Electric Pallet Truck

Small Footprint.
Serious Productivity.

Designed to work as hard as you do, the Breeze Electric Pallet Truck is your reliable, low-maintenance partner for fast-paced retail and warehouse environments.

Weighing as little as 125kg and powered by a robust lithium-ion battery, it offers exceptional performance for such a compact and manoeuvrable pallet truck.

Features:

- Maintenance-free lithium battery and brushless drive motor
- Easy & quick charging
- Smart control functions like turtle speed and error code display
- Ergonomic tiller with LCD display, horn, and lifting/lowering controls
- Gradeability up to 20% for ramps and loading docks

Standard spec:

Load capacity:

1.5 tonnes

Battery:

48V 10Ah lithium-ion

Fork widths:

550-685mm

Lengths:

1000-1150mm

Brake: **Electromagnetic**
